International Class: G06F-017/60; G06F-019/00

ABSTRACT

PROBLEM TO BE SOLVED: To concurrently solve such problems in **accounting** processing system via communication line wherein that the dealing content about an **account** is preliminarily required from a bank before journalizing work is carried out by an **accounting** software for **accounting** service, different from other enterprise business, and that an expertise is required to conduct the journal based on the dealing content data.

SOLUTION: This system is provided with the **accounting** software and an electronic **banking**(EB) **software** in the data center of a business software service company, and provided with a means by which a user makes the dealing content data from the bank received to the data center using the EB software by an operation of a user terminal, and by which the automatic journal of the data is carried out by the **accounting** software via the **Internet** line.

Banks move to the cutting edge

The gale of reorganisation now sweeping across the landscape of Nigerian banking has left many observers pondering over the industry's place in the next millennium. Virtually every bank has carried out some form of reorganisation in a bid to maintain comp
